Backend : Node.js, Express.js.
Database: MongoDB.
Tools : Git & GitHub, VS Code, MongoDB Compass, MS Word, Postman.
Soft Skills : Problem-solving, Communication skills, Team collaboration.

PROJECTS

CourseAcademy ↗
Technologies Used: MongoDB, Express.js, React, and Node.js (**MERN**), JavaScript, Vite and Tailwind CSS
Description:
- Added course purchasing features, built an admin dashboard where admins can add or delete courses and manage payments.
- Implemented **user authentication (JWT, bcrypt)**, CRUD operations, and API integrations.
- Designed and developed **responsive UIs** using React and Tailwind CSS.
- Created **RESTful APIs** and integrated frontend with backend for dynamic data flow.
- Managed code with **Git & GitHub**, deployed the project on **Vercel/Render**.

Food Delivery App ↗
Technologies Used: React.js, CSS, JavaScript, GitHub, Vite, Responsive Web Design
Description:
- Developed a fully responsive food delivery web application using React.
- Implemented dynamic components and state management using hooks (useState, useEffect).
- Built reusable card components to display food items.
- Added functionality to add items to the cart and filter food items by category.
